IMPORTANT NOTICE TO CUSTOMERS
(Notice 77 of 2019)

SYSTEM INTERMITTENT CONNECTIVITY CHALLENGES

The CIPC systems is currently experiencing intermittent connectivity issues due to the abrupt electrical power interruptions (load-shedding) that led to unexpected hardware and configuration failures.

In addition, the current inclement weather conditions also affect the CIPC’s connection to the external world.

The CIPC ICT team together with the respective service providers are currently restoring affected services that are within their control.

CIPC apologises for any inconvenience caused.

Regards

Andre Eitzinger
