1. TERMS AND CONDITIONS OF REQUEST FOR TENDER (RFP)

1. CIPC's standard conditions of purchase shall apply.
2. Late and incomplete submissions will not be accepted.
3. Any bidder who has reasons to believe that the RFP specification is based on a specific brand must inform CIPC before BID closing date.
4. Bidders are required to submit an original Tax Clearance Certificate for all price quotations exceeding the value of R30 000 (VAT included). Failure to submit the original and valid Tax Clearance Certificate will result in the invalidation of this RFP. Certified copies of the Tax Clearance Certificate will not be acceptable.
5. No services must be rendered or goods delivered before an official CIPC Purchase Order form has been received.
6. This RFP will be evaluated in terms of the **80/20** system prescribed by the Preferential Procurement Regulations, 2001.
7. The bidder must provide assurance/guarantee to the integrity and safe keeping of the information (that it will not amended/corrupted/distributed/permanently stored/copied by the service provider) for the duration of the contract and thereafter. Failure to submit will invalidate the bid proposal.
8. CIPC reserves the right to negotiate with the successful bidder on price.
9. The service provider must ensure that their work is confined to the scope as defined.
10. Travel between the consultant's home, place of work to the DTI (CIPC) vice versa will not be for the account of this organization, including any other disbursements.
11. The Government Procurement General Conditions of contractors (GCC) will apply in all instances.
12. As the commencement of this project is of critical importance, it is imperative that the services provided by the Service Provider are available immediately. Failing to commence with this project immediately from date of notification by CIPC would invalidate the prospective Service Provider's proposal.
13. No advance payment(s) will be made. CIPC will pay within the prescribed period as per the PFMA.
- 14. All prices quoted must be inclusive of Value Added Tax (VAT)**
- 15. All prices must be valid for 120 days**
16. The successful Service Provider must at all times comply with CIPC's policies and procedures as well as maintain a high level of confidentiality of information.
17. All information, documents, programmes and reports must be regarded as confidential and may not be made available to any unauthorized person or institution without the written consent of the Commissioner or his/her delegate.
18. The successful bidder must ensure that the information provided by CIPC during the contract period is not transferred/copied/corrupted/amended in whole or in part by or on behalf of another party.
19. Further, the successful bidder may not keep the provided information by way of storing/copy/transferring of such information internally or to another party in whole or part relating to companies and/or close corporation. As such all information, documents, programs and reports must be regarded as confidential and may not be made available to any unauthorized person or institution without the written consent of the Commissioner or his delegate.
20. The service provider will therefore be required to sign a declaration of secrecy with CIPC. At the end of the contract period or termination of the contract, all information provided by CIPC will become the property of CIPC and the service provider

may not keep any copy /store/reproduce/sell/distribute the whole or any part of the information provided by CIPC unless authorized in terms of the declaration of secrecy.

21. The Service Provider is restricted to the time frames as agreed with CIPC for the various phases that will be agreed to on signing of the Service Level Agreement.
22. CIPC will enter into Service Level Agreement with the successful Service Provider.
- 23. CIPC reserves the right not to award this bid to any prospective bidder or to split the award.**
- 24. Fraud and Corruption:**

The Service Provider selected through this Terms of Reference must observe the highest standards of ethics during the performance and execution of such contract. In pursuance of this policy, CIPC Defines, that for such purposes, the terms set forth will be as follows:

- i. "Corrupt practice" means the offering, giving, receiving or soliciting of anything of value to influence the action of CIPC or any personnel of Service Provider(s) in contract executions.
- ii. "Fraudulent practice" means a misrepresentation of facts, in order to influence a procurement process or the execution of a contract, to CIPC, and includes collusive practice among bidders (prior to or after Proposal submission) designed to establish Proposal prices at artificially high or non-competitive levels and to deprive CIPC of the benefits of free and open competition;
- iii. "Unfair trade practices" means supply of services different from what is ordered on, or change in the Scope of Work;
- iv. "Coercive practices" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the execution of contract;
- v. CIPC shall reject a proposal for award, if it determines that the bidder recommended for award, has been engaged in corrupt, fraudulent or unfair trade practices;
- vi. **CIPC also reserves the right to terminate this Agreement by giving 10 (ten) business days written notice to the service provider due to any perceived (by CIPC) undue reputational risk to CIPC which CIPC can be exposed to resulting from the service provider or its management/directors being found to be involved in unethical behaviour, whether in its dealings with CIPC or any other business dealings.**
Note: "Unethical behaviour" includes but not limited to an action that falls outside of what is considered morally right or proper for a person, a profession or an industry
- vii. CIPC shall declare a Service Provider ineligible, either indefinitely or for a stated period of time, for awarding the contract, if at any time it determines that the Service Provider has been engaged in corrupt, fraudulent and unfair trade practice including but not limited to the above in competing for, or in executing, the contract.
- viii. The service provider will sign a confidentiality agreement regarding the protection of CIPC information that is not in the public domain.

3. INTRODUCTION

CIPC's mandate is the registration of companies, close corporations, cooperatives and intellectual property rights. Related services include the disclosure of information as well as dispute resolution arising out of infringements to these rights. The CIPC, therefore, needs to ensure the integrity and efficiency of its processes in order to provide accurate processing, retention and disclosure of information and appropriate service levels to all its stakeholders.

CIPC would like to invite bidders to submit proposals for the Customer Enquiry Management System

4. BACKGROUND

CIPC has a progressive strategy of becoming a more e-services orientated organization. CIPC Customers are currently engaging and transacting with CIPC through various channels, that includes Website, Collaboration partners, Self Service Terminals (via Service Centres), USSD, Mobile, Call centre, Webinars, User-Information sessions and other related service offerings.

CIPC has requirement to channel all enquiries and queries to a central point of entry for more effective and efficient management and feedback. Customer queries provide vital data and business intelligence which should drive tactical and strategic interventions, hence the need to utilise an appropriate solution aimed at creating a Customer Engagement Centre which would provide a seamless "omni" channel, multi-channel multimedia, multi device integration functionality on a single platform eventually, to ensure CIPC remains abreast and equipped for this digital age.

5. SCOPE OF WORK AND OBJECTIVE

On being awarded the contract, the successful bidder will be required to provide a Customer Enquiry Management System as per the requirements depicted in point 4 below. Therefore, the scope of this bid is for a system to receive, address and monitor written enquiries from the public via its website www.cipc.co.za.

6. SYSTEM REQUIREMENTS

CIPC requires a single point of entry for all written enquiries via its website www.cipc.co.za and the proposed solutions must include the (i) customisation of existing software/solution to the CIPC environment and requirements, (ii) branding of the software/solution, (iii) installation and (iv) maintenance and support for a period of 36 months. The proposed solution must also be scalable, allow for at least a minimum of 1000 concurrent customer users and internal staff users at any given point in time with an adequate response, compatible with all browsers used by consumers and not browser version sensitive, and compatible with multiple consumer devices e.g. desktop, laptops, as well as smart phones and tablets.

The proposed software/solution must contain at least the below indicated functionalities:

Logging and Accessing of Enquiries:

- a. Customers must be able to log onto the enquiry system via the CIPC website with his or her existing account details as provided and authenticated by the CIPC. Customer verification via the customer code is required since CIPC is mandated by law to monitor who accesses its information, allow identification of the customer who needs assistance and monitor behaviour of customers.
- b. It must be compatible with all major browsers used by customers and must not be “sensitive” to browser versions.
- c. The Customer’s CIPC customer code and password must be integrated and enabled to sign on to the system. The system must integrate in real-time with existing CIPC systems to authenticate customer credentials. This will also include that, if the customer changed his or her customer profile, that access to the online enquiry system will not be hampered and instances where customers do not have a customer code and need assistance on how to create one (e.g. a “guest” option).
- d. Appropriate fields must be created according to CIPC’s needs. The customer logging an enquiry needs to populate the fields when submitting an enquiry to CIPC in order to allow for identification of the customer, the relevant transaction and preferred communication method. The system must generate a unique ticket number or reference number for traceability and auditability of the enquiry.
- e. It must be possible to select a specific skillset (category) (e.g. name reservation of a company or company registration), and based on that process, the query must be “queued” and submitted.
- f. Ability to automatically send a reply to customers as soon as a ticket is lodged to confirm receipt – customised per specific skillset/category;
- g. Back office team members must be able to log onto the online enquiry system, access multiple enquiry queues, respond to enquiries via the same system and if necessary upload documents in multiple formats (e.g. PDF, TIFF, Word, Excel, JPEG, HTM);
- h. It must be optional for back office team members, supervisors, managers and system administrators to be notified of new or escalated enquiries. Due to the amount of incoming enquiries for specific categories certain category groups will opt not to receive such notifications and therefore they need to have the option.
- i. The customer and back office team members must be able to respond multiple times on a single logged Enquiry and also attach attachments in multiple formats.
- j. Each category group or business unit must be able to “filter” or “view” enquiries to view only those relevant to their particular unit / division or specifically assigned to them as an individual.
- k. It must be possible to view data required by filtering all the tickets according to date or department or Category.
- l. Ability to attach at least three attachments at a go (not more than 7Mb per attachment) and upload via the system in various formats (e.g. PDF, TIFF, Word, Excel, JPEG, HTM);
- m. Customers must be able to view the responses by signing on to the website as well as receiving an email notification of problem resolved and the attachments to the ticket must also be sent by e-mail to the customer;
- n. Customers must be able to open and close responses if not satisfied/satisfied;

- o. There should be system prompts to certain fields making it impossible for the user to close the enquiry without it being addressed.
- p. Multiple (at least up to a thousand) consecutive users to be able to log on concurrently – internally and externally.

Administration:

- q. The system should have a role-based authorisation capability. Access control levels need to be built into the system – for example to ensure that only the Annual Return team can answer the queries related to Annual Returns;
- r. The system should have an automated query allocation mechanism. More than one person per business unit need to be able to work on a single queue and staff should not be able to work on the same query simultaneously;
- s. The content of tickets (full content) must be printable from the system and also it must be exportable to pdf, as well as Word or Excel for quality assurance;
- t. Provision must be made for different statuses of a specific enquiry, for auditing purposes. For example Received, In progress (or processing), Completed, Queried, Resubmitted;
- u. It must be possible to save the standard responses/procedures and just copy and paste it for repetitive queries. Automatic escalation of enquiries to a next levels (at least 3 levels up to senior manager) must be possible according to pre-set turn around standards agreed upon with appropriate alerts and must be amendable by the CIPC as and when needed;
- v. CIPC end-users should be able perform configuration of workflow activity without involving software developers or the service providers. Administrators of the system must be able to effect changes, redesign and add categories, skillsets and users (etc.) without having to request such changes from the service provider.
- w. Integrated, easily retrievable archive (5yr) capability.

Monitoring and Reporting

- x. Real-time Dashboard monitoring of status of tickets per categories, dates etc.
- y. It must be possible to draw detailed reports – regarding the status of each ticket, detailed statistics per business unit, number of queries answered per person etc. The MIS reports must be customizable – for example each manager must be able to draw reports specifically relevant to their unit or skillsets.
- z. It must also be possible to sort the reports based on any of the fields required for query resolution and/or trends analysis.
- aa. A function must be available to allow a search for complete customer history or for a specific case within the total customer history.
- bb. Quality assurance capability.

Trend or data analysis:

- cc. Ability to filter specific trends.
- dd. The “raw data” must be exportable to Excel and accessible to Crystal Reports for further detailed analysis.

Training:

The successful bidder will be expected to provide face to face training for internal staff to a maximum of 250 staff members at the CIPC offices. A training manual and video for customers and one manual and video for internal users on how to use the solution and its various functions must be provided. It is expected that the training manuals and videos will have to be updated as and when requested by CIPC during the contract period.

Maintenance and Operations:

- Maintenance and support must be provided for a period of the contract (36 months) as well as amendments, corrections, fixes and new functionality.
- System must have capacity to absorb new volumes which can be handled.
- The technology of the system e.g. Database management system, operating system, language/framework, including any proprietary software utilised must be able to integrate with CIPC systems
- Customisability of system functionality and features, customisation process, ability to add subcategories and other like 'look and feel' to match and complement CIPC

Exclusions from scope:

- CIPC will be hosting and maintaining the website, data and database relating in terms of which the solution will implemented.
- CIPC will be hosting and maintaining customer profile and internal user information although the proposed solution will have to integrate in "real-time" with CIPC database systems to validate access rights to customers and internal users (see above Logging and Accessing of Enquiries for more clarification).

7. CONTRACT DURATION

The contract duration is for 36 months. A Service Level Agreement (SLA) will be entered into with the successful bidder.

8. Copyright:

Copyright of all documentation, electronic data, programme source codes, manuals, videos and documents produced or prepared for CIPC in respect of this Bid, (including training material) by or on behalf of the Bidder or emanating from this Contract shall vest in CIPC, which shall have the right to adopt such for other projects. Any base systems, programme source codes, technical manuals or adaptations developed by the Bidder or its supplier prior to this Contract will be excluded. The Bidder shall not, without written consent of CIPC granted by a duly authorised official, use copy or communicate to any person such documents or information, except as strictly necessary for the purposes of the Contract. In addition, and without limiting the foregoing, the Bidder shall deliver such documentation to CIPC, immediately upon expiry or termination of the Contract.

9. SPECIAL CONDITIONS

- I. The bidder must provide assurance/guarantee to the integrity and safe keeping of the information (that it will not amended/corrupted/distributed/permanently stored/copied by the service provider) for the duration of the contract and thereafter;
- II. **CIPC reserves the right to negotiate with the successful bidder on price;**
- III. The service provider must ensure that their work is confined to the scope as defined;
- IV. Travel between the consultants home, place of work to the **dti Campus** (CIPC) will not be for the account of CIPC, including any other disbursements unless agreed to in writing by CIPC prior to the expense being incurred;
- V. Government Procurement General Conditions of Contract (GCC) as issued by National Treasury will be applicable on all instances. The general conditions are available on the National Treasury website (www.treasury.gov.za);
- VI. No advance payment will be made. Payment would be made in terms of the deliverables or other unless otherwise agreed upon by CIPC and the successful bidder. CIPC will pay within the prescribed period according to PFMA;
- VII. The price quoted by the prospective service provider must include Value Added Tax (VAT);
- VIII. The successful bidder must at all times comply with CIPC's policies and procedures as well as maintain a high level of confidentiality of information;
- IX. The successful bidder must ensure that the information provided by CIPC during the contract period is not transferred/copied/corrupted/amended in whole or in part by or on behalf of another party;
- X. Further, the successful bidder may not keep the provided information by way of storing/copy/transferring of such information internally or to another party in whole or part relating to companies and/or close corporation;
- XI. As such all information, documents, programs and reports must be regarded as confidential and may not be made available to any unauthorized person or institution without the written consent of the Commissioner and/or his/her delegate;
- XII. The service provider will therefore be required to sign a Declaration of Secrecy with CIPC. At the end of the contract period or termination of the contract, all information provided by CIPC will become the property of CIPC and the service provider may not keep any copy /store/reproduce/sell/distribute the whole or any part of the information provided by CIPC unless authorized in terms of the Declaration of Secrecy;
- XIII. The Service Provider (successful bidder) will be required to sign a Service Level Agreement with CIPC prior to the commencement of the contract; and
- XIV. Compliance with PFMA regulations in terms of the safeguarding of assets and adequate access control must be guaranteed. Assets include all infrastructure, software, documents, backup media and information that will be hosted at the Offsite ICT Recovery Site. These security measures must be specified in the SLA.
- XV. As the commencement of this contract is of critical importance, it is imperative that the prospective Service Provider has resources that are available immediately. Failure to commence with this contract immediately from date of notification by CIPC could invalidate the prospective Service Provider's proposal.

10. EVALUATION PROCESS (Criteria)

The evaluation process will be done in accordance with the following criteria:
